PRICE TEN CENTS

WILL CONSIDER RELATIONS OF U.S. AND RUSSIA

(By Associated Press)
WASHINGTON, D. C., March 23.—Early consideration is to be given relations between the United States and Soviet Russia, it was indicated at the state department today.

Formal announcement of a change in the relations between the two countries or in any rulings by the Wilson administration may not be made for some time, but it was made clear that already certain modifications of those rulings were being made.

These decisions were reached independent of the appeal from the Soviet government to President Harding and the American government for resumption of trade relations between the United States and Russia. That appeal reached the state department today from the White House.

In the event of an agreement by the United States to treat with the Soviets, it was indicated no technical bars would be placed against entry into the United States of the delegation which a Moscow wireless to London said the Soviet proposed to send here to negotiate a trade agreement.

GERMANY IS NOW SHORT OF RADIUM

(By Associated Press)
BERLIN, March 23.—Once the chief producer of radium, Germany now has barely enough to meet the medical needs of the great universities. There is only one gram of radium in all Berlin, and proportionately even less at Heidelberg and other university cities.

The shortage is said to be due to the fact that karnothit, used in the manufacture of radium, is no longer imported from America. The Germans say the United States could supply plenty of karnothit, but in view of the low purchasing power of the mark the Germans cannot afford to buy it.

POLES SEEK WAY TO BUILD FLEET

(By Associated Press)
WARSAW, March 23.—Polish statesmen are trying to find a way to build up a fleet of merchant vessels to ply the seven seas. Pushed back from the salt water when Poland lost her independence and was partitioned by Prussia, Russia and Austria, the new republic, by the treaty of Versailles, was granted an outlet to the Baltic.

The Polish government is aiding the private concerns to finance the operation of several vessels plying chiefly between English, French and Holland ports. Other firms are extending the service to America.

Poland's ministry of war has just purchased four monitors as the foundation of the Vistula fleet. Six torpedo boats, assigned to Poland by the council ambassadors, formerly having been a part of Germany's naval forces, are now under repairs in England.

A navy bureau of the ministry of trade and industry has been formed by the Polish government and a naval school has been established at Tiel on the Vistula, just outside the limits of the free city of Danzig. The course of the academy is to be conducted along lines of modern English naval schools, an English naval mission having spent some time in Poland assisting the new government in inaugurating its program.

ASKS NEW TRIAL FOR JAMES NEVEN

(By Associated Press)
BREMEN, Germany, March 23.—The Bremen opera company has filed the boycott against all French and English composers except Saint-Saens, who once was very popular here. The "Bremen and Berlin" was one of Dresden's most favored operas before the war. The opera company announced that on account of the Frenchman's anti-German writings his compositions would never be played.

OPERA COMPANY LIFTS BOYCOTT

(By Associated Press)
BREMEN, Germany, March 23.—The Bremen opera company has lifted the boycott against all French and English composers except Saint-Saens, who once was very popular here. The "Bremen and Berlin" was one of Dresden's most favored operas before the war. The opera company announced that on account of the Frenchman's anti-German writings his compositions would never be played.

NIPPON GETS A GERMAN LINER

(By Associated Press)
TOKIO, March 23.—The German steamer Cap Finisterre, 29,000 tons, awarded to Japan after the war, has reached Yokohama. The vessel will be given to the Nippon Yusen Kaisha, which will place it on the Japan-European run.

SENSATIONAL CHARGE MADE IN STILLMAN CASE

(By Associated Press)
WHITE PLAINS, N. Y., March 23.—The definite charge that Mrs. Anna U. Stillman, wife of James A. Stillman, president of the National City bank of New York, was the mother of a child by an Indian guide, was made today in supreme court by counsel for Mr. Stillman, during the preliminary arguments in the divorce suit which the bank president has brought.

Addressing the court, Delancey Nicoll, chief counsel for Stillman, said: "The evidence before you shows Mrs. Stillman took as her lover the Indian guide by whom she had an infant son, whom Stillman must either acknowledge as a member of the family or repudiate as illegitimate. This criminal intimacy began in 1916 and continued through 1919. Mr. Stillman feels it is his duty to his father's memory, to his family and to his children to press this matter to conclusion."

THREE ARIZONA BANKS CLOSED

(By Associated Press)
PHOENIX, Ariz., March 23.—The Citizens State bank of Phoenix and the Central bank of Wickenburg were closed today. The banks have been placed in the hands of the state auditor, who is also state bank director.

BENEFIT DANCE BRINGS RESULTS

The proceeds so far accounted for raised by the local order of Eagles for the relief of the Burnett family amounts to \$450. There are several persons who had the selling of tickets who have not reported, but will do so tomorrow. The war tax will be deducted from every ticket sold and this will reduce the net sum somewhat. The Bonanza up to date has collected \$73.

DISEASE KILLS 20,000 SHEEP

(By Associated Press)
CARDIFF, March 23.—Nearly 20,000 sheep have been killed recently in the vale of Clwyd by a disease known as "flock" according to a report to the Welsh agricultural council. Experts say the point of attack is in a certain class of snail, and that better drainage of the land is the best precaution against the disease.

ASKS NEW TRIAL FOR JAMES NEVEN

(By Associated Press)
BREMEN, Germany, March 23.—The Bremen opera company has lifted the boycott against all French and English composers except Saint-Saens, who once was very popular here. The "Bremen and Berlin" was one of Dresden's most favored operas before the war. The opera company announced that on account of the Frenchman's anti-German writings his compositions would never be played.

LEGION EXPELS ANDERSON FOR UTTERANCES

(By Associated Press)
NEW YORK, March 23.—Alexander E. Anderson, former commander of the One Hundred Sixty-fifth Infantry, has been notified by the New York county executive committee of the American Legion that he has been expelled from the veterans' organization because of utterances at a recent "Horror on the Rhine" meeting here.

This meeting was called as a protest against the alleged use by the French of negro troops in the occupied zone of Germany, and later was condemned by the Legionaries as propaganda to destroy the cordial relations between the United States and her war allies.

NO INDICATION OF RESUMPTION

(By Associated Press)
SALT LAKE CITY, March 23.—Robert S. Lovett, chairman of the board of directors of the Union Pacific railroad, said there was no indication when the railways might be able to resume work on many shops throughout the country which have been closed down or which had to reduce their forces.

OFFICIAL VISIT TO LOCAL LODGE

Mrs. May J. Marshall, grand chief of the Pythian Sisters, will arrive on tomorrow morning's train to pay an official visit to the local temple, Argenta No. 12, at the regular meeting tomorrow night. The members here are making most elaborate preparations to receive their distinguished guest.

FEDERAL LAND SURVEYORS HERE

Homer Harrison, James Shine and Robert Miller, of the United States land office, are in Tonopah, having arrived today from Lasland, a station on the T. & T. railroad, where the railroad company has an experimental farm that is producing every known fruit and vegetable.

The land office representatives have been surveying government land in that vicinity, the same never having been mapped for townships. It looks as though the government is preparing to have experimental wells in that section for water. There is an abundance of water at shallow depth from the surface, and if a few artesian wells can be brought in the country around Lasland will blossom as the rose, and a population of considerable numbers will materialize by the water development.

C. D. AYRES RECEIVES FEDERAL APPOINTMENT

Attorneys for James Neven, convicted of manslaughter in the Rita Hanna case, have made application for a new trial.

The trial, which occupied over two weeks, last week was continued. Sentence is to be fixed by Judge Norman today. The question of bail pending the appeal for a new trial is to be considered.

MAY GO EAST

Senator Odell has offered District Attorney Clark J. Gault of Lyon county a position on the west coast as a special relief commission. The place calls for a \$10,000 salary. Mr. Gault has the matter under consideration.

SILVER HILLS MEN GO TO MINE TODAY

William J. Loring, president of the Silver Hills Mines company, George L. Broy, junior member of the firm of Lewis & Broy, prominent San Francisco brokers, and Harry Stimler left this morning for Silver Hills to inspect the latest developments. They report great interest among those who are interested in the Silver Hills mine, and they themselves are greatly pleased at the excellent showings that have been reported continuously by the mine managers since the ore was first opened on the 200-foot level, about two weeks ago. Daily face samples ranged from \$12.80 when the first indications of the rich shoot were found, to \$141, \$183, \$65, up to \$212, and, on the last report, a full width of \$54 ore.

A party of visitors who made a trip to Tule Canyon yesterday, including R. G. Williams, general manager of the Gold Reef Divide Mining company; P. C. Fisher, editor of the Miner, and Charles Willett, a well-known miner and prospector, returned last night from an inspection of the district and made a brief stay at the Silver Hills mine. They were shown samples of high-grade ore extracted from some of the upper workings in the mine, beyond the place where Sheriff Ingalls opened up his pay shoots, which fairly glistened with silver. Because of limited time, the visitors could not pay a visit to the mine, through extended an invitation, but from their observations on the surface and the tonnage that are ready to go through the mill they believe that the Silver Hills mine will make one of the biggest paying silver mines in the state.

ATTACKERS BEATEN IN IRISH AMBUSH

(By Associated Press)
DUBLIN, March 23.—An inspector of police and eight men were ambushed near Dingle yesterday and the fight of three hours which followed ended disastrously for the attackers, eight being killed and 20 wounded, according to an official announcement. Three police were slightly wounded. It was added.

AFTER BANDITS IN HOLY LAND

(By Associated Press)
JERUSALEM, March 23.—Bandits have flourished in the Holy Land as well as in other parts of the world since the beginning of the war. The police are now trying to put an end to their activities.

Abdul Hadi Kaha, the notorious outlaw leader, who is said to have several murders to his own personal credit, was shot and killed at Zichron Jacob recently while attempting with several companions to escape arrest.

The Galilee district police, in co-operation with the authorities at Jaffa, successfully attacked the Syrian section of Mudeira's gang of bandits at Kafir Abil and captured several of them. Mudeira himself is a fugitive on the other side of the Jordan and it is believed that his followers are scattered.

HAVE YOU DONE YOUR JUST DUTY?

The business people of Tonopah are realizing what an oil producing well means to Tonopah and are subscribing for stock in the Fish Lake Oil company, which has for its president our well-known townsman and business hustler, Charles Taylor, and he has as associates in this company the well and favorably known firm of Richardson & Foster. Again, the Bonanza wants to impress on every business person in Tonopah the necessity of their buying a few thousand shares in this commendable enterprise. Let it be said that it took Tonopah capital to bring in the first oil well in Nevada, thereby securing the \$25,000 bonus offered by the state for the first producing oil well. Be it said with praise for them that the laboring classes are buying considerable stock and it is dollars to doughnuts that this stock will put them on Easy Street. It is a known fact that oil exists in Fish Lake and with the proper Standard rig producing well will be the final outcome. So let's go, and help prove that oil at our own door exists and by commercial quantities. Make your stock purchases today not tomorrow.

THREE HELD FOR MURDER

(By Associated Press)
EL PASO, Texas, March 23.—Five men were taken into custody yesterday for the shooting to death on Monday night of Prohibition Officers Beckett and Woods. They will be arraigned tomorrow on charges of murder, the district attorney's office announced.

KOREANS AN JAPS IN SERIOUS BATTLE

(By Associated Press)
TOKIO, March 23.—A special dispatch from Wiju, Korea, narrates a serious encounter between Japanese forces and insubordinate Koreans near Wiju.

The police, while reconnoitering, encountered a large number of armed Koreans who offered a stout resistance. The Koreans, who were apparently on their way into the interior across the frozen Yalu, fought for nearly four hours before being defeated. Several revolvers and bayonets of an old type were captured. In the action Commander Constable Nakamura was killed and another police officer was wounded. The majority of the Koreans were killed, but some of the leaders escaped.

PUBLICATION OF KAISERS BOOK STIRS HOLLAND

(By Associated Press)
LONDON, March 23.—Public opinion in Holland has been greatly stirred by the publication of former Emperor William's book, which is regarded as proving he is abusing Dutch hospitality by dealing with political questions, says an Exchange Telegraph dispatch from Amsterdam. The book also, it is contended, shows the former German ruler has not yet retired definitely from political life, and his presence in Holland is thus constituting a "serious menace." It also is stated the cabinet will draw his attention to his obligations.

ATTACKERS BEATEN IN IRISH AMBUSH

(By Associated Press)
DUBLIN, March 23.—An inspector of police and eight men were ambushed near Dingle yesterday and the fight of three hours which followed ended disastrously for the attackers, eight being killed and 20 wounded, according to an official announcement. Three police were slightly wounded. It was added.

The majority of the Koreans were killed, but some of the leaders escaped.

SIX KILLED IN COUNTY CORK

(By Associated Press)
CORK, March 23.—Six civilians were killed in Blarney district, County Cork, in a battle when crown forces were fired upon from farmhouses. The military were conducting a search for wanted men when they were attacked.

GERMANY SAYS SHE OVERPAID REPARATIONS

(By Associated Press)
PARIS, March 23.—Germany, in reply to the recent allied ultimatum, refuses to pay 1,000,000,000 marks, gold, due on this date, and disputes the reparations commission's figures showing a balance of 12,000,000,000 marks due on May 1.

The German note maintains that 20,000,000,000 marks which the peace treaty provided should be handed over by May 1 had been more than paid.

SINN FEINERS CUT TELEGRAPH WIRES

(By Associated Press)
BELFAST, Ireland, March 23.—Telegraph wires between Belfast and Dublin were cut last evening. The authorities believe the act is in preparation for possible Sinn Fein activity during Easter week.

LEAGUE FOUND TOO EXPENSIVE

(By Associated Press)
SAN SALVADOR, March 23.—The republic of Salvador, Nicaragua, has begun negotiations to obtain permission to resign from membership in the league of nations because the expense attached to membership is considered excessive, says a dispatch from Managua. It costs Nicaragua \$4000 a month and the government now owes \$48,000, having been a member for a year.

SMITH TO QUIT AS CHAIRMAN

(By Associated Press)
CARSON, March 23.—From reliable sources it has become known that George D. Smith, chairman of the Nevada industrial commission, will resign in a very short time. Rumors of Smith's resignation have been in circulation for several months. It is understood that he plans to go to California to manage the affairs of his wife's mother.

The vacancy which will be created by Smith's resignation will be filled by appointment to be made by the industrial insurance board, composed of Governor Boyle, Attorney General Fowler and Andy J. Stinson, state mining inspector. The appointment will undoubtedly go to some "deserving Democrat." It is considered one of the best appointive positions in the state and carries a salary of \$5000 per year as well as the distribution of several appointive places.

W. P. Harrington, state senator from Ormsby county and now employed in the office of the commission, is an active applicant for the position and J. B. O'Sullivan, United States surveyor-general for Nevada, also has been mentioned as a likely appointee.

Senator Harrington's "fine" work in upholding Judge Laugan and preventing his removal from office which should have been accomplished, should not recommend him for any appointment by the present appointive board or any future board.

BRITAIN CARRIES HALF PHILIPPINE EXPORTS

(By Associated Press)
MANILA, P. I., March 23.—British ships carried nearly one-half of all the exports of the Philippine islands during the month of December, 1920, as shown by the report of the customs bureau. The exports during the last month of the year amounted to approximately \$5,900,000 in value, and out of this \$3,300,000 worth of products left the islands in British bottoms.

MEN WHO SOUGHT TO ABDUCT DRAFT EVADER JAILED

(By Associated Press)
MOSBACH, Baden, March 23.—Carl Neuf and Franz Zimmer, American detectives, have been sentenced to prison here for "illegal assumption of power" in attempting to arrest Grover Cleveland Bergdoll, an American draft evader.

Neuf, against whom the charge of "inflicting bodily injury" had been preferred, was sentenced to jail for 15 months, while Zimmer's term was fixed at six months. The additional charge against Neuf arose from a bullet wound suffered by a young woman when a revolver was fired during the attempted abduction.

Four Germans, who were tried as accomplices of the Americans, were also found guilty, and were sent to jail for terms of from five to 12 months.

POOLING PLAN PROPOSED BY U.S. FARMERS

(By Associated Press)
WASHINGTON, D. C., March 23.—Secretary Weeks said that so far as the war department was concerned, no request has been sent to the German government for clemency for Neuf and Zimmer, the American detectives involved in the Bergdoll abduction case.

POOLING PLAN PROPOSED BY U.S. FARMERS

(By Associated Press)
CHICAGO, March 23.—Pooling of farmers' grain, either on a national or local scale, constitutes the outstanding feature of the national co-operative marketing plan proposed by the committee of seventeen, Chairman C. H. Gustafson said here today, explaining its details.

The committee, whose full name is the Farmers' Grain Marketing Committee of Seventeen, is holding state meetings this month preparatory to a ratification conference in Chicago April 6. The committee represents co-operative organizations of farmers interested in grain marketing, prominent among them the American Farm Bureau Federation.

As an alternative to the pooling plans, farmers may sell direct.

"The national pooling plan calls for pooling grain with a central agency, selling by grade and then distributing the profits equally to each contributor to the pool," Mr. Gustafson said. "This would operate to give each producer the average price for grains of a certain grade which he contributed to the pool. It would insure the producer the average price for the year. Pooling products in this manner has reached its highest development among the California co-operative organizations.

"Products so pooled pass out of the control of the individual producer and the grain will be sold by the directors of the pool at the time that they deem most opportune.

Provision is also made for a local pool by members of a single community. In both local and national pools the control is centralized and the selling price averaged."

Let some men talk long enough and they will tell you a lot of things they did not want anybody to know.

BUTLER THEATRE

WILLIAM FARNUM
—IN—
"THE SCUTTLERS"
A stirring story of the sea. Thrilling, fighting romance of the deep. Two typical Farnum fights.
